The draft circulars proposed in that file was not issued as, under the three new Municipal Regulations, separate rules have to be framed & issued. In this view para 27 of the Accounts Manual will have to be entirely recast by issuing rules under the new Regulations

5 Section 206 (2) of the Mysore City Municipal Regn 1933 requires the framing of rules according to which expenditure by city municipal council has to be regulated. In view of the increased responsibilities with which the city municipal bodies are invested, it is necessary to give them certain powers, in keeping with the spirit of the new regulation and also to decentralise so as to minimise correspondence with Govt in matters relating to the day to day administration of city municipal council. There are certain

Safeguards provided in the regulation against excess, illegal or unauthorised expenditure - especially the provision of surcharge - further, the accounts of the city mcpltys are being audited monthly by the auditors of the municipalities, besides the Municipal audit Committee.

The powers of expenditure proposed to be given to the city mcpltys are based on the analogy of those granted to the District Boards recently. Draft rules framed under sec 206 (2) of the city mcpltys regulation are subject for consideration. They require to be published previously in the Gazette before final adoption (section 228 (4)). The draft rules may perhaps be sent to the financial secretary/auditor for an expression of opinion before publication, calling for objections. [Separate rules will be framed under the town municipalities regn]

2 It is not clear whether the proposed order is intended to supercede rule 27 of the Municipal Manual Part II. If so, rules similar to present 27(2) & (3) regarding reappropriation of grants, and sanctions to Public Works would also require to be inserted in the proposed order.

3. The proposed rules appear to be suitable in all other respects except that the power referred to in rule 4 may not be delegated to the Commissioner or President since he is the Chief disbursing officer and it is not desirable to empower him to authorise expenditure without vouchers This power may be left reserved to the Council.

4 In the last but 2nd line of the draft order the words "or to the President" may be inserted as one of the two City Municipalities has an official President and not a Commissioner. These corrections are suggested in the draft in the file in blue pencil.

in the disposal of cases, large powers of expenditure are proposed to be given to the Offg Mrs of thus decentralize the work. Further these rules have to be issued by the Govt. by virtue of the powers vested in them under Sec 208 (2) of the Offg Mrs this Regulation. The contention that such rules restrict the powers of expenditure unnecessarily and hampers the smooth working of the Local Self Govt institutions (Offg Mrs) is not sustainable

35) There is no intention in the mind of Govt to restrict the discretion of the Mil Cl beyond what is prescribed under the Regn. The main object of the rules is to give some powers to the Mil Cl so as to enable them to spend money to the extent specified therein without reference to Govt on each occasion which is just what is being done now and thus also minimise correspondence with Govt by this method of decentralization. The scope & object of the rules seem to have been completely misunderstood altogether.

REV SECTT.

1 FEB 1934
L. & G. BRANCH.

Dear Sir,

We submit the following objections to the draft rules for regulating the expenditure from out of the funds of the City Municipal Council published in Notification No L 4942-MI 190 33-1 dated 4/1/34

At the outset we are embarassed as the objects & reasons for the framing of the proposed rules are not set forth they are not sent for the consideration by the Municipal Councils, whose interests are sought to be effected.-

I Draft rules 1 and 2 are objectionable as if they constitute an interference with the powers of the Municipal council ~~which~~ which under S 22 g thereof the Municipal Government is vested, and as they violate the principle of local self-Government which Govt a benign Government are anxious to promote they are unnecessary as

as under S 223, the Government have power to require the Municipal Council to reduce the number of persons employed by them or proposed to be employed by them or to reduce the remuneration to be paid to them. As the marginal note to the section reads, it specifies the power of Government to prevent extravagance in the employment of establishment. No further restriction either desirable or necessary

(ii) Draft rule 3 obviously aims at a restriction even on a very petty item of expenditure, and the Government can safely trust the Council to distribute clothing among its servants unfettered by rules, consistent with economy and efficiency

(iii) Draft rule 4 is objectionable because in the interests of the purity of the Municipal administration, no expenditure without vouchers should be encouraged

Further, the Municipal council being the sole judge of the "benefits" of the expenditure for municipal purposes, the council may well admit of such items on the understanding any limit being placed

In another view, as the Government have power to surcharge the Municipal Officers and councillors, such a rule will be wholly unnecessary for any illegal admission of unauthorized expenditure will mean their having to pay for the same personally

(iv) Objections to the 5th rule as proposed may arise in each individual case based on different considerations generally they are open to the objection that they are an encroachment on the powers of the Council even in respect of routine ~~matters~~ expenditure and so practically on ~~the obligatory~~ performance of obligations in lieu

Re clause (a) in the interests of economy and quick despatch, the council oftentimes feel the need to resort to private presses in preference to the Govt Press they are not slow however to resort to Govt Press whenever they find such a course advantageous In this view the discretion ought to be left unfettered

Re clause (b) so long as the Municipal council have to keep economy in the forefront As long as they have opportunities to judge the comparative merits of cabinet makers & the chances of bargaining and reducing the rates with them, the Government agency itself not being competitive in their rates, there is no reason to fetter the council's discretion.

Re clause (c) So long as the Municipal Council have their own advocates to guide them in professional matters and the filing of law suits is a part of Municipal administration for recovery of their claims, and so long as they have the choice of obtaining the best legal talent ~~available~~ in heavy contested cases, no restriction is either proper or desirable

Re clause (d) when the councillors in the nature of things a Democratic body nationalistic in their views, their purchase of articles of European manufacture will be few and far between unless compelled by necessity For these few cases there is no warrant for drawing a distinction between articles of Indian and European manufacture

Re clause (e) consistent with their financial resources, a corporate organisation like the Municipal Corporation can be credited with

the proper perspective as regards expenditure on this item which for all practical purposes will be for housing schools & therefore will in the first instance be subject to the scrutiny of the School board

Re clauses (f, g, h, & th) the items therein invariably find a place in the budget & under ss 203 & 205 of the regulation provide ample safeguards to Government to control any expenditure of an extravagant nature. Any further restraint or obligatory functions will prove irritating and lead to constant friction clauses g & th are particularly in point Any correspondence in respect of such expenditure will mean ~~several~~ often abdicating the elementary duty by the ratepayers in order to observe rules & procedure.

Re cl (i) the contingency is borne as not to require serious notice. Reports to Govt in respect of such a matter ought to serve as a sufficient check

Yrs faithfully
K. Venkata Ramiengar
and Camilla & a servant

The draft report of the Sub Committee on the rules framed by Government under Section 228 (2) (i) regarding the preparation of plans and estimates was taken up for consideration

The report was discussed at great length.

Mr. C.N.Narasinga Rao proposed that before the word " unnecessary appearing after " works costing more than Rs 30,000 is " in the Sub Committee's report, the words " is not contemplated by Section 228 (i) of the Municipal Regulation of 1933 " be added.

Mr. S.K.Venkataranga Iyengar seconded it.

Mr. S.K.Venkataranga Iyengar further proposed that Rules 3 and 4 be deleted and that in the draft rules framed by Government the word Chief Engineer " appearing in Rule 4 be substituted by the word Government.

This was seconded by Mr. C. N. Narasinga Rao.

The Rule 4 may be revised as under :-

" Every other work shall be commenced only after a technical scrutiny and approval of the plans and estimates by the Government, when the estimated cost exceeds Rs. 10,000/-."

The report of the Committee as per alterations noted above was put to vote and carried unanimously.

Then the other report relating to regulating the expenditure out of Municipal Funds under Section 206 (2) of the City Municipalities Regulation of 1933 was taken up for consideration.

Resolution :- The report of the Sub Committee was approved in toto.

SRB

Report of the Committee dated 19-3-1934 constituted by the Municipal Council to consider the draft rules for regulating the expenditure out of the Municipal Funds under Sec.206 (2) of the City Municipalities Regulation.

In the opinion of this Committee, the draft rules taken as a whole seem to be unnecessary, so far as the Bangalore City Municipality is concerned. The rules try to impose greater restrictions upon the discretion of the Municipality enjoyed even under the old Regulation. As the Committee believe that it is the object of the new Regulation to give greater powers of self-government to the City Municipal Council, the proposed rules seem to be retrograde in effect. There is no single instance in the past, where Government have had to interfere on account of extravagant expenditure on the part of the Municipal Council, Bangalore City. Until such an occasion arises, we think the Municipal Council may be given a free hand from the point of view of expenditure for purposes set forth in the Regulation. Government can always interfere when there is extravagance.

As regards rules 1 & 2, it is better to leave the Municipal Council to sanction its own temporary establishment in times of emergency--Government interfering only when there is extravagance.

There are also other provisions in the Regulation like Sec.210 & Sec.223 which will have a healthy check upon the powers of the Municipality in spending money. It is therefore, the considered opinion of the Committee that it is unnecessary to frame these rules. Prescribing of the rules may therefore be dropped.

Municipal Councils are at present required to submit to Government for sanction all items of expenditure objected to in audit, however trivial the amount involved or whatever the nature of the expenditure may be As this involves unnecessary work and undue delay, Government consider it desirable to delegate to Deputy Commissioners the powers of sanctioning such expenditure within certain limits and are pleased to invest Deputy Commissioners with the power to sanction the following items of expenditure incurred by Town and Minor Municipal Councils —

(*a*) expenditure not exceeding Rs 100 in each case on items specified in the second proviso to section 52 of the Municipal Regulation,
